Co-funded by the European Union

		FOOD			
		Inclusivity	Greening Cities	Soustainable tourism	Wild Card
Climate and Biodiversity Co-creation space					
Climate and Biodiversity Community space					
Biodiversity Kiosk					
Climate Canteen					
S4T on Wheels					
Territory					

The S4T co-programming and coordination canvas is a tool designed to provide an overview of how the core activation areas of S4T are addressed through the lens of food. It is used in collaborative meetings and within the project's spaces as a visual reference, where project partners can add post-its with activities that are either in the planning or prototyping phase. The canvas should clearly display which activities are being planned and which core activation areas they cover. This overview is useful both for individual planning and for gaining a comprehensive understanding of all partner activities within the project.

Project Title | S4T - Station for Transformation modelling a train station as a replicable hub for public-civic engagement to tackle climate change and biodiversity challenge
Project nr. | EUKI-231
Output | D4.2 Curatorial Concept
Author | La Foresta and Bravo! New Alps
Responsible authors | Flora Mammana, Bianca Elzenbaumer
Illustration | Veronica Martini
Contributors | La Foresta: Veronica Martini, Sebastiano Moltrer
Municipality of Rovereto: Paolo Carlucci
